

Indeed Apply

Get up to 8X more applicants.¹

Indeed Apply is an easy, mobile-optimized application process that helps you get more applicants and provides a better experience for job seekers.

Easy for job seekers

Indeed Apply makes it easy for job seekers to apply using their Indeed resume. More than 120 million job seekers have already created or uploaded their resume on Indeed, and now they can submit their resume and apply to your job in just a few clicks.

Stand out in search results

Jobs with Indeed Apply get 12% more clicks than jobs without Indeed Apply.² It's like free, built-in SEO for your jobs.

Mobile-optimized

Top candidates are searching for jobs on mobile right now. In fact, 65% of Indeed job search traffic comes from mobile devices.¹ With Indeed Apply, candidates can easily apply to your job from any device, helping you reach millions of mobile job seekers.

Custom screening questions

Indeed Apply supports screening questions and can be easily customized for most application processes so you get the information you need to make hiring decisions.

² Indeed data (US)

Easy for employers, easy for job seekers

Applicants can easily “Apply Now” directly from Indeed’s site or mobile app with their Indeed Resume or they can upload a new one.

After the application is complete, the application appears in your Applicant Tracking System (ATS) as usual.

Senior Software Engineer

HTWW Labs ★★★★★ 185 reviews - Austin, TX

Apply Now

Responsibilities

- Develop and drive automation test planning, cases, and strategy across several functional teams to ensure product quality.
- Integrate with existing infrastructure to establish a continuous build and test cycle.
- Establish tool sets and processes to maintain automation scripts and generate regular test reports.

Two ways you can get the benefits of Indeed Apply for your job listings:

1. Use an Applicant Tracking System (ATS) that integrates with Indeed

Over 200 Applicant Tracking Systems have integrated with Indeed and offer Indeed Apply to employers like you. When you use an ATS that’s connected to Indeed, jobs you create in your ATS are delivered to Indeed via an XML feed and include Indeed Apply.

To find out if your ATS is integrated with Indeed, visit [indeed.com/hire/ats-integration](https://www.indeed.com/hire/ats-integration) and talk to your ATS about ensuring Indeed Apply is turned on for all your jobs.

2. Post jobs directly to Indeed

If you aren’t currently using an Applicant Tracking System, you can post your job directly on Indeed at [indeed.com/hire](https://www.indeed.com/hire). All jobs posted on Indeed automatically include Indeed Apply.

Your next hire is here.

More people find jobs on Indeed than anywhere else. Over 200 million visitors each month search for jobs, post resumes and research companies on Indeed.
